Instructional videos and YouTube channel

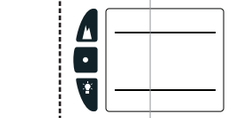

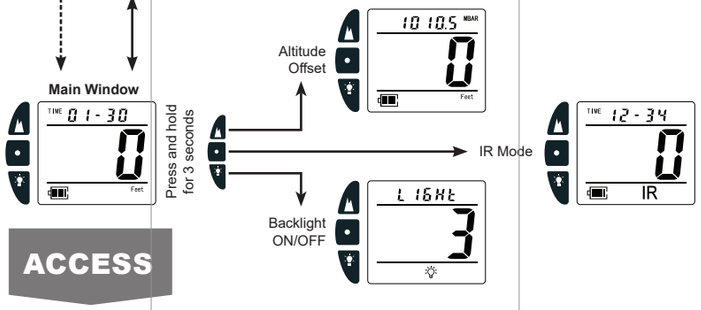

The ALFA 3™ has been powered OFF prior to shipping from our factory. To turn the **power ON**, press and hold any key for 2 seconds.

To conserve battery life, you can set the display to turn off after 1 to 60 minutes while in Ground Mode. The ALFA 3™ remains ready to jump, and the display automatically powers on when it detects movement, a button press, or enters Flight Mode.

If the ALFA 3™ is in ECO mode, it will completely switch off after 14 hours of inactivity. **Turn the unit back on before using it for skydiving.**

Note: In flight mode, the display will always stay on.

ACCESS

ACCESS

1. Press and release the **mode** button – the lock icon turns off
2. When the lock icon reappears, immediately **press and hold** the **mode** button – the lock icon turns off again
3. When the lock icon appears again, **release** the **mode** button .
   - The ALFA 3™ is now in **ACCESS** mode to Logbook and Jump Info.

Note: The ALFA 3™ exits ACCESS and returns to the Main Window if no button has been pressed within 15 seconds. ALL functions (except Power ON) can be performed ONLY when the ALFA 3™ is in ACCESS mode.

Fast Off
